

AI Challenge Evaluation Rubric

Final score out of 50 points
10 aspects to be assessed
1-5 points each

Criteria	
Relevance to Higher Education	Directly addresses a major challenge or opportunity in teaching, learning, or administration.
Innovation & Creativity	Demonstrates original and creative use of AI with clear novelty.
Educational Impact	Strong potential to enhance learning outcomes or engagement.
Feasibility	Implementation plan is realistic
Scalability and transferability	The solution is easily scalable and can be transferred to other fields
Use of AI Tools	AI is effectively and appropriately integrated, adding clear value.
Ethical Considerations	Clear safeguards for privacy, fairness, and responsible use are in place.
Evidence & Metrics	Clear evaluation plan with measurable success indicators.
Teamwork & Presentation	Presentation is clear, engaging, and well-organized; teamwork is evident.
Project Maturity Level	Fully functional or ready-to-pilot prototype.
